- ❖ Most students rush past the IX and X classes, concentrating only on the immediate objective of a high score in the board exam and start preparations competitive examinations from class XI onwards.
- ❖ The way Science and Maths is taught at IX & X standards, it does not help a student to prepare for either National Talent Search Exams (NTSE), NSEJS / IJSO & RMO or other State Science Talent Search Exam examinations.
- ❖ As a result students tend to ignore competing in and preparing for exams like NTSE, NSEJS etc. – not realizing that these exams give him / her the much required exposure to the world of competitive exams, in addition to all the glory they bring along.
- ❖ There is a quantum jump in the level of difficulty of subjects for students in Class XI as compared to Class X.
- ❖ The students in any case have to struggle to cope up with Class XI syllabi, add to that competitive exams preparation with absolutely no exposure to competitive exams, the job becomes much more daunting.
